PROFESSIONAL EXPERIENCE

Grasko Solutions (KanTime)

Technical Writer - Documentation

August 2024 — January 2026

- Executed successful end-to-end Technical Content creation involved in Software Documentation Process including Release Notes, API Documentation, and Design Docs.
- **UI/UX & Technical Documentation:** Developed comprehensive technical documentation using HTML, XML, and JSON formats to standardize data interchange descriptions. Created detailed UI component library documentation to support frontend development teams.
- **Design System Integration:** Collaborated with designers to document the Design System using Figma, ensuring consistency across the product suite. Produced UI/UX

documentation that bridged design intent with technical implementation.

- **API & Backend Integration:** Authored API documentation with interactive examples for developers. Documented networking integration projects connecting UI interfaces with backend Python scripting processes, ensuring clear understanding of data flow and protocols.
- Analyzed information to identify target audiences and implemented standardization strategies, leading to enhanced perusal of UI/UX content.
- Implemented agile methodologies leading to enhancements in the Process of Content Management.

Oliveboard Comptech PVT LTD, Bengaluru **January 2019 — February 2024**

Senior Content Associate / Team Lead - Digital Content

- **UI/UX Documentation:** Developed extensive UI/UX documentation using Figma for design handoffs, reducing implementation errors by 20%. Created design system documentation structured in HTML/XML formats for better accessibility by development teams.
- **Networking & API Documentation:** Documented REST API integrations between frontend UI and Python backend services. Created detailed guides on networking protocols used for data exchange between the UI and backend systems.
- Successfully led the development and launch of Banking & Financial Services SEO content, resulting in a 30,000+ subscriber base on Social Media.
- Conducted extensive market research and user testing to inform product features, leading to a 20% improvement in user satisfaction and a 15% increase in course completion rates.
- Collaborated with Tech, Graphic Design, and Marketing teams to ensure seamless integration of product initiatives.
- Managed a budget of Rs 10-15 lakhs and led a team of 3 permanent staff and 15-20 freelancers.

Yes Officer, Lucknow

JAIIB Category Content Writer - Freelancer July 2024 — Sept 2024

- Developed content for JAIIB certification exam Papers including Principles and Practices of Banking, Accounting and Finance, and Legal Aspects.
- Enhanced learning materials ensuring comprehensive coverage of essential banking topics.

Walnut Knowledge Solutions, Bengaluru

Content Creator July 2016 — January 2017

- Developed and created engaging and informative content for various platforms.
- Conducted thorough research to ensure accuracy and relevance of content.

KEY TECHNICAL PROJECTS

- **UI Component Library Documentation:** Spearheaded the documentation of a React-based UI component library. Used Storybook concepts and wrote technical guides in Markdown and HTML, enabling developers to reuse components efficiently.
- **API Integration with Python Backend:** Documented the complete API lifecycle for a Fin-Tech product. Mapped JSON request/response structures and detailed the Python backend logic for data processing, aiding faster debugging and integration for the frontend team.
- **Design System Documentation (Figma & HTML):** Created a centralized repository for the company's Design System. Integrated Figma prototypes with HTML-based documentation to provide a "single source of truth" for designers and developers regarding typography, color palettes, and spacing rules.
